

ASD SUPPORT COORDINATOR IMPACT REPORT

ROLE OVERVIEW

The ASD Support Coordinator assists students registered with Accessibility Services to improve their academic-related executive functioning and social skills. Beyond Accessibility Services, the ASD Support Coordinator connects with campus partners and colleagues to support Autistic students across the St. George campus.

WHAT'S NEXT?

Continue to build connections and provide training to other departments across campus to better support students on the Autism spectrum, while creating more “autism-friendly” spaces. Expand resource library for Autistic students within the U of T environment.

KEY ACCOMPLISHMENTS

Increased attendance at ASD programming by **50%** and introduced two new ASD programs within Accessibility Services.

Created **two** navigation-based resources for students.

Established connection with **12** external networks including other post-secondary institutions.

Supported Accessibility Advisors during the intake process with the rapidly growing number of newly registered autistic students.

Provided essential one-to-one support to **hundreds** of students on the Autism spectrum.

Led workshops with **six** campus partners on how to better support Autistic students.
